

Lee Fratto

Dr. William Stokes, Director  
NICEATM (MD EC-17), NIEHS  
PO Box 12233  
Research Triangle Park, NC 27709  
Fax: (919) 541-0947

Dear Mr. Stokes,

This is in reference to the findings of scientists at the NIEHS regarding the use of in-vitro cell cultures as a replacement for lethal animal tests. I believe that the NIEHS should begin efforts to completely replace lethal dose testing with non-animal, in vitro testing methods.

Thank you for you time in reading this.

Sincerely,

Lee Fratto
